***Community Health Network of Connecticut Makes Direct Transaction Exchange Free to All Its Network Providers***

**Wallingford, CT, November 9, 2006** - Community Health Network of Connecticut, Inc. (CHNCT), a not-for-profit managed care organization providing statewide health care services for HUSKY and the SAGA program, has partnered with Post-N-Track Corporation to enable network providers to submit claims directly to CHNCT free of charge. CHNCT is one of four health plans serving almost 300,000 Connecticut HUSKY participants and the only program serving the state-administered general assistance program (SAGA).

"We are pleased to offer our providers the Post-N-Track® solution. Direct, bi-directional connectivity will go a long way in making the claim submission process more simple, efficient, and effective," said CHNCT Provider Informatics & Connectivity Administrator Ray Hastings.

Post-N-Track enables health care providers to submit or 'post' their claims to CHNCT directly and securely over the Internet and to receive or 'track' results utilizing the Claim Management Center™ for receipt confirmations, acknowledgments, claims status and remittance notices – without an intermediary.

"We are pleased to partner with Community Health Network of Connecticut to offer their providers this free solution," said G. Allen DeGraw, Founder and CEO of Post-N-Track. "We both are committed to leveraging electronic information exchange to simplify and improve an otherwise burdened claims submission process."

**About Community Health Network of Connecticut**

Community Health Network of Connecticut, Inc. is a not-for-profit managed care organization that is sponsored by seven Federally Qualified Health Centers (FQHCs) in Connecticut. It provides statewide Healthcare Services to approximately 57,000 members of the state's HUSKY A and HUSKY B programs, and 32,000 beneficiaries of State Administered General Assistance (SAGA). The FQHCs offer a statewide network of primary and specialty healthcare services, including both inpatient and outpatient services.

**About Post-N-Track Corporation**

Post-N-Track Corporation creates, deploys and manages a new generation of "plug and play" solutions for the transaction and information-intensive healthcare industry. Doodad® and Doohickey™ Web services and Web tools cut through the existing tangle of transaction intermediaries by facilitating direct "posting" and "tracking" of any transactions and information among and between trading partners of any size (e.g., payers, health care providers, billing entities, banks, and employers). Post-N-Track is simple to implement and use; highly secure; compliant across real-time and batch transactions; and extensible to support the exchange of other types of administrative, financial and medical information. To learn more about Post-N-Track, visit the company at [www.Post-N-Track.com](http://www.Post-N-Track.com) or call Barbara Wierzbicki at 860.632.0572.
